So what can we do about it?

Open contracting: a global norm

**OPEN
CONTRACTING
PARTNERSHIP**

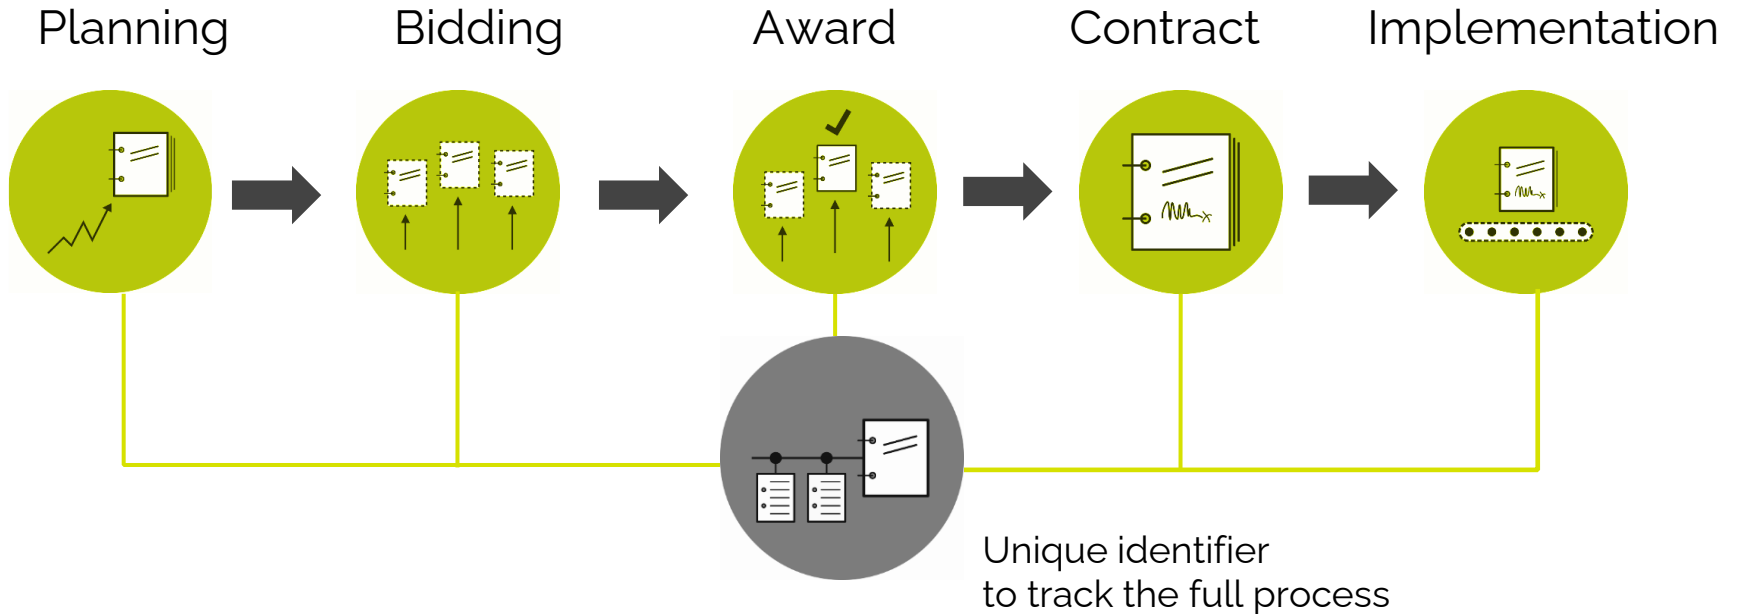

Our mission

Transforming public contracting so it is open-by-design, fair and efficient.

We build a global community for change and support powerful examples of what is possible when governments, businesses and citizens work together. We measure and share results from open contracting, including **increased competition, better value for money**, and **improved efficiency, integrity and trust** in public markets.

KINNAUR

Kinnaur in Perspective

Kinnaur's health procurement performance compared to other districts in Himachal

All the values are on the scale of 0 to 1

🔗 Internal Efficiency : 0.269

📉 Value For Money : 0.055

🏆 Competition : 0.286

📊 Overall : 0.407

Kinnaur's procurement performance has been **below average** over the last three years in comparison to her sister districts. Kinnaur has less data than the other states on the procurements site.

1) On average, the time given for **bid submission was 14.7 days** (according to the Manual for Procurements released by the Indian Government at least 21 days should be allowed) while the average number of days for **bid evaluation has been upwards of 157 days**. (While there is no specified time for the bid evaluation days in the Manual of Procurements released by the Indian Govt, this decision period does not take this long and is a cause for concern - either in terms of delays with reporting or something else).

2) The district has had **cost overruns of about Rs 38 lakhs in total** across the three and a half years during the contracting process towards health and sanitation related procurements.

3) Over the past three and a half years, the district on average received **2.4 bids per tender** and **2 tenders** was contracted **after the contract expired**.

4) The district on average spent **Rs 28 per person** toward non-fixed costs.
